Computation of Grade Point Average

Each course in the student's program is assigned a credit value, usually on the basis of one credit for each hour per week of classroom work.

The number of grade-points per course is determined by multiplying the number of credit points associated with the grade the student has achieved by the credit value assigned to the course.

The Grade-Point average is then determined by dividing the total number of grade-points accumulated by the total number of credits undertaken. Every student's record will contain a computation of the Grade-Point Average for each term individually (Term GPA), and an accumulated Grade-Point Average for the overall program from one term to the next (Program GPA).

Please visit Policy 2000-1-4 on www.mylambton.ca for a detailed example of grade point calculation.

Example:

Letter Grade	Grade Points	Credit Weight	
A	4	x 3	=12
B	3	x 3	=9
B-	2.7	x 2	=5.4
C+	2.3	x 4	=9.2
		12	35.6

Grade Point Average: $(35.6/12) = 2.97$

Academic Standing

Dean's Honour List

Recognizes outstanding performance where a full-time student has achieved a minimum term GPA of 3.5.

Good Standing

A full-time student has maintained term GPA of 2.00 or higher.

Academic Jeopardy

A full-time student achieved a term GPA of less than 2.00.

Academic Dismissal

A full-time student who achieves a term GPA of less than 1.50 in three terms, in one or multiple programs, over any three calendar years.

Graduation Requirements

A program GPA of at least 2.0 is required for graduation. Some programs may have additional minimum requirements.
